

THE WORLD MEDICAL ASSOCIATION, INC.

WMA Dues Categories 2021

The Council of the World Medical Association has advised the Secretary General that the dues assessment be changed from a flat rate of € 2.00 per declared member to a rate based on the World Bank's classification of the Constituent Members country's economy.

The dues rates for the year 2021 are as below:

Category A Low income economies	€ 0,40 per member
Category B Lower middle income economies	€ 0,95 per member
Category C Upper middle income economies	€ 1,60 per member
Category D High income economies	€ 2,15 per member

These categories are provisional under the requirement that the annual dues payment for each NMA in Categories A, B, or C remain at least the same amount as the dues paid by such NMA in 2005, with a corresponding increase in the number of members. And the new baseline was approved by the General Assembly in Montevideo.

This information is according to World Bank Country Classification 2021¹ based on Gross National Income (GNI). Bold indicates a change of classification.

Category A: Low-income economies (29)

Afghanistan	Guinea-Bissau	Sierra Leone
Burkina Faso	Haiti	Somalia
